Learning Points

The Past Continuous Tense versus Simple Past Tense

You use the Past Continuous tense to talk about something that was happening at a particular time in the past.

You often use the Past Continuous tense together with the Simple Past tense.

The Past Continuous talks about a longer 'background' action.

The Simple Past talks about a shorter event that happened in the middle of, or interrupted, the longer event.

You use the words **when** and **while** before the longer action.

Examples:

- *Peter totally bombed that speech when we were taking English.*
- *We didn't work very hard while we were taking that course.*
